# PLANETARY MIXER SM-40HI

## Standard features

11/2 Hp (1,2 kW) motor, grease packed ball bearing, aircooled; \* 400V/50Hz/3Ph Thermal over load protection Front mounted controls: separate start and stop buttons so operators can shut down mixer immediately in an emergency situation. 3 fixed speeds 15 min. mechanical timer High torque, permanently lubricated transmission Heat treated, hardened alloy shaft operating with planetary action. Stainless steel bowl guard with built in chute. Safety interlocked bowl and bowl lift. Non-slip rubber feet #12 attachment hub Hard wired cord with ground prong; no plug

#### **Transmission**

Heat treated, hardened alloy, precision milled gears operate with planetary action. Gears are packed in a long-lasting, high pressure grease. Planetary gears are driven by an oversized cog-wheel, which is in turn driven by a cogged belt powered by the motor drive shaft. Cogged belt is a long-lasting, rugged fibre/rubber component. This design yields high-torque mixing power while avoiding the cost encountered repairing direct-drive transmission components.

### <u>Speeds</u>

Agitator rpm / hub rpm 1.Low speed: 90 / 60 2.Intermediate speed: 161 / 108 3.High speed: 291 / 197

### Standard equipment

Standard equipment includes a 40 qrt (38 l.) high quality stainless steel bowl, 1 dough hook and 1 flat beater in aluminum, 1 wire whip in stainless steel. A sturdy hand wheel on the body column raises and lowers the bowl as well as locking in place at the top and bottom. # 12 attachment hub.

### **Optional accessories**

Meat grinder for attachment on hub Vegetable cutter with 8 discs for attachment on hub Reduction kit 20 qrt (19,5l) bowl and 3 tools Bowl scraper Bowl trolley

### <u>Finish</u>

Top (transmission cover): metallic Bottom: metallic gray epoxy enamel Non-toxic paint.

### Mixer dimensions/weight

Length x Width x Height 638 x 738 x 1316 mm

N.W: 260 Kg G.W: 280 Kg

\* Other voltages and 60 Hz available upon request.
